

TiO₂ Free

Colorful capsules. Colorful choices.

BioV HPMC CAPSULES

Colored opacity solutions

To meet the requirements of EU regulation and titanium dioxide-free, BioV provides more TiO₂ free color options, including opaque and transparent appearance for food supplement applications.

Opaque and transparent colors are available in red, orange, yellow, green, brown and black without using titanium dioxide.

TiO₂ Free

A Wide of Color Options

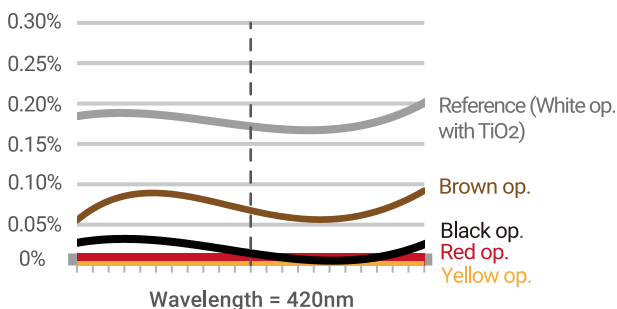

Opaque & Transparent

Made of HPMC

Transmittance

Transmittance Data of TiO₂ Free Opaque Capsules

	BioV TiO ₂ Free				TiO ₂
	Brown op.	Black op.	Red op.	Yellow op.	Reference
Transmittance 420nm	0.08%	0.02%	0%	0%	0.17%

→ Good opaque effect

Lower transmittance than TiO₂ white capsule
